

## AXIS T92A20 Housing

Protective housing for Axis network cameras.

- > High Power over Ethernet
- > Indoor and outdoor installation
- > Easy installation
- > Aluminum casing
- > IP66-rated protection

AXIS T92A20 Housing protects the Axis network camera in outdoor and adverse indoor conditions.

AXIS T92A20 Housing is tailor-made and carefully tested to comply with Axis network cameras. This stylishly designed housing has a side opening and pre-installed High Power over Ethernet splitter for quick and easy installation. The pre-installed High Power over Ethernet splitter provides power both for the camera and for heating the housing, eliminating the need for additional power cables.

Made of die-cast aluminum, the AXIS T92A20 Housing offers an IP66-rated protection against dust and heavy rain.

The included sunshield, with its integrated edge-protector, offers good thermal insulation, enabling the Axis network camera to operate in temperatures ranging from -20°C up to 50°C (-4°F to 122°F).

The housing comes with a wall bracket with ball joint and internal cable channel. Various accessories are also available.

Supported cameras are AXIS 210, AXIS 210A, AXIS 211, AXIS 211A, AXIS 211M, AXIS 211W, AXIS 221, AXIS 223M, AXIS Q1755, AXIS P1311, AXIS P1343, AXIS P1344 and AXIS P1346 Network Cameras.
