

Description

The Concept range of high-resolution monochrome monitors offer a 9, 12, 14, 15 and 20" screen size ensuring that we can supply a monitor for any application. All monitors are fitted into a corporate style 2 tone grey case to provide continuity on installations where mixed screen sizes are required. Superb picture quality is guaranteed throughout the range with a horizontal line resolution 1000 at the centre of the screen.

Key Features

- Horizontal Resolution 1000 Lines @ Center
- Audio Input and Output as Standard
- Supports Composite Loop-through
- Corporate Styling Throughout Range
- Durable Metal Case
- 2 Year Warranty

Additional Information

The Concept range of monitors are built into durable metal cases to protect from damage and offering immunity to external electrical and magnetic interference.
