

ONE PRODUCT.. ONE DOME/PTZ

RVX18 RVX18-W (wiper)

All X-SERIES cameras can be configured as either conventional Domes or Ball type Pan & Tilts. Cameras are supplied as Domes, but can easily be transformed to Pan & Tilts by removing the Dome Top Cover.

Dome Configuration.

X-series domes all have flat toughened glass windows providing superior optics compared to conventional Dome bubbles. Unlike conventional Domes the X-series Cameras can see above the horizon without the video picture being clipped by the Dome top.

Ball PTZ Configuration.

X-Series Ball PTZ can be inverted and tower mounted. This mounting option provides full 360° vision.
