

WebReview

WebReview from Verint Video Solutions provides anywhere/anytime access to your digital video network. Using merely a computer with a web browser and Internet connection, WebReview's intuitive web-based interface enables a user to access any camera on the network to view both live and recorded video, as well as control PTZ functionality.

Key Features:

Multi-camera View: Allows users to view up to 4 camera views from multiple recorders and sites simultaneously. Users can choose single or 2x2 mode.

Simultaneous Review: Allows users to review video recorded from up to 4 cameras simultaneously.

Multi-field Query: Allows video query by camera, date, time, and site.

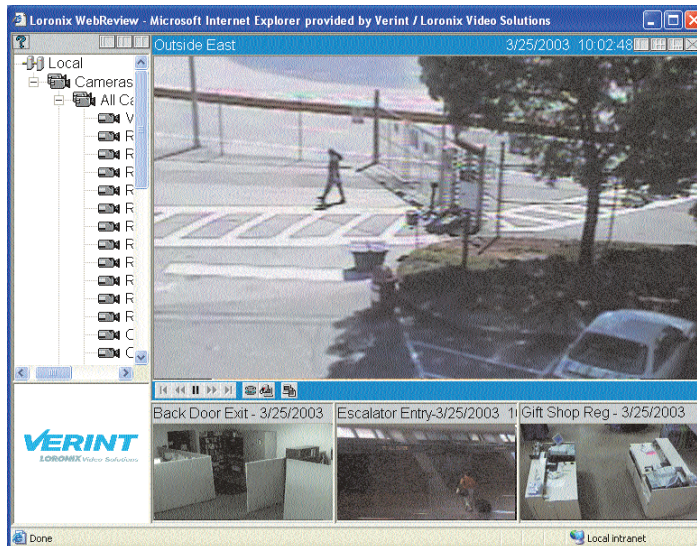

Site Manager: This interface has been designed to assist in the administration and monitoring of large digital video networks operating in multiple locations. It allows users to view live or recorded video from any IP-connected Loronix recorder, anywhere in the world.

Playback Controls: Video can be reviewed in single frame and multiple-frame increments, either in forward or reverse playback.

PTZ Camera Control: Digitally control Pan, Tilt and Zoom functions at the click of a mouse. This PTZ control works with a wide variety of analog video matrix switches, code generators and PTZ cameras including a range of products from Philips, Pelco, American Dynamics and Panasonic.

The Benefits of WebReview

- 4 View video remotely
- 4 Multi-site access for cameras across the enterprise
- 4 View live and recorded video
- 4 View video in multiple layouts
