

VIDEOIQ®

# VideoIQ® Product Summary

VideoIQ is the trusted leader in intelligent video analytics. Our award-winning adaptive analytics use pattern analysis rather than pixel analysis which makes them smarter and more accurate over time. Because they are continuously self-calibrating, they adapt to their environment and deliver reliable, pro-active threat detection and forensic evidence. Intelligent analytics are embedded in all VideoIQ hardware.

In addition, the iCVR and Rialto product lines provide all the benefits of the VideoIQ architecture, including zero bandwidth recording with reliable on-board distributed storage. Hybrid (SSD & HDD) and onboard NVR storage eliminate the need for expensive centralized storage and high capacity networks — reducing deployment costs and system complexity. By using VideoIQ, any new or existing video surveillance system can be upgraded with the industry's most intelligent analytics.

VideoIQ Hardware Product Matrix						
	iCVR-HD	iCVR D1 Dome		iCVR Encoder	Rialto Analytic Bridge	
		Indoor	Outdoor		A4	
<b>Max Resolution / Channels</b>						
1080p / 30fps	Y					
D1 / 30fps		Y	Y	Y	Y / 4 channels	
<b>Environmental</b>						
Rating	IP66	IP40	IP66	IP30	IP40	
Power Options	PoE, 12VDC, 24VAC	PoE	PoE, 12VDC, 24VAC	PoE, 12VDC, 24VAC	12VDC	
<b>VMS Integrations</b>						
VideoIQ View	Y	Y	Y	Y	Y	
Pre-integrated with 3rd party VMS	Y	Y	Y	Y	Y*	
<b>Onboard NVR Storage</b>						
Storage Type	Hybrid (SSD & HDD)	Hybrid (SSD & HDD)	Hybrid (SSD & HDD)	Hybrid (SSD & HDD)	SSD	
Full onboard NVR	Y	Y	Y	Y	Y	
Max Capacity	750GB	500GB	500GB	500GB	160GB	
<b>Features</b>						
Free VMS View™ Software	Y w/web browser	Y w/web browser	Y w/web browser	Y w/web browser	Y w/web browser	
Analytics	Y (1080p)	Y (D1)	Y (D1)	Y (D1)	Y (D1)	
Control PTZ Cameras				Y	Y	
Flexible analytic alerts & notifications	Y (VMS, HTTP Push, Email, SMS)	Y (VMS, HTTP Push, Email, SMS)	Y (VMS, HTTP Push, Email, SMS)	Y (VMS, HTTP Push, Email, SMS)	Y (VMS, HTTP Push, Email, SMS)	
Thermal Camera Use				Y	Y	
Multi-Streaming	x2 H.264 + 1 MJPEG	x2 H.264	x2 H.264	x2 H.264	x2 H.264 + 1 MJPEG	
Audio Channels	1 In 1 out	N/A	1 In 1 out	1 In 1 out	2 In 2 Out	

\* Leading VMS providers include but not limited to: Avigilon, Exacq, Genetec, Lenel, Milestone, OnSSI
