

Weatherproof Casings

The Ultimate Indoor and Outdoor TV Protection

- Accommodates screen sizes from 19" up to 42" for Plasma, LCD and LED TVs
- Vandal proof, shatter resistant front cover
- High security hardware to combat unauthorised access and theft
- Suitable for use in a huge range of applications

Models & Sizes: TVS01- sizes from 19" up to 26" TVS02- sizes from 30" up to 42"

Accommodates screen sizes from 19" up to 42" (2 models) for Plasma, LCD and LED TVs. Also suitable for 47" LED TVs with a narrow bezel/frame. Overall HMWP plastic construction, the same material as used in children's playground slides and other equipment, affords durability and impact resistance. The front cover is constructed with optically clear LEXAN polycarbonate, a shatter resistant component used in bullet-proof glass and police riot shields. Waterproof and dustproof cabinet structure – suitable for mounting indoors or outdoors.

Security – The TV shield cabinets have two chambered (barrel) locks, supplied with keys and a riveted top mounted piano hinge, providing excellent resistance to unauthorised access and theft.

Viewing options allow the TV shield cabinet to be opened or viewed closed through the clear LEXAN polycarbonate front panel. The TV shield has premoulded VESA mounting points to provide a range of siting options.
